The top songwriters and producers on the Billboard Hot 100 and selective genre songs chart that utilize the Hot 100 formula (blending streaming, airplay and download sales data) for the charts dated December 7, 2019. Rankings are based on accumulated weekly points for all charted songs — on the specified chart for the week — on which a songwriter or producer is credited. If a song is written or produced by more than one person, points are divided equally among all credited parties.
